Reliable. Scalable. Easier.

We make telematics easier—for you and your clients. With white-label flexibility, smooth onboarding, and expert support that evolves alongside your business, the platform gives you the tools—and the partnership—you need to deliver a world-class tracking experience.

What is the Consumables Module?

The Consumables Module helps fleet operators manage vehicle maintenance supplies by tracking two key areas: **Consumables** and **Suppliers**.

- ◆ **Create** inventory items
 - ◆ Replenish stock
 - ◆ **Generate** Reports
 - ◆ **Allocate** stock to vehicles
 - ◆ **View** transaction logs
 - ◆ **Alert** stock thresholds
- 

How it Works

1. **Add** Customers & Locations
2. **Create** Orders with Stops
3. **Assign** Vehicles Manually or Automatically
4. **Monitor** Stop Status
5. **Use Mobile App** for Navigation & Proof of Delivery
6. **Analyze** Performance via Reports

Automatic Planning

Automatic scheduling based on vehicle specs and attributes

Benefit

By integrating fuel, temperature, and door/hatch sensors with the platform, operators gain real-time visibility, fuel is used efficiently, sensitive areas are properly maintained, and doors are accessed only when authorized.

Key Benefits

- ◆ **Simplifies** complex delivery planning
- ◆ **Minimize** fuel usage and travel time
- ◆ **Visibility** on order progress
- ◆ **Supports** proof of delivery with image/signature
- ◆ **Reduces** missed or failed deliveries
- ◆ **Tailored** planning through custom fields and filters
- ◆ **Mobile App** for drivers

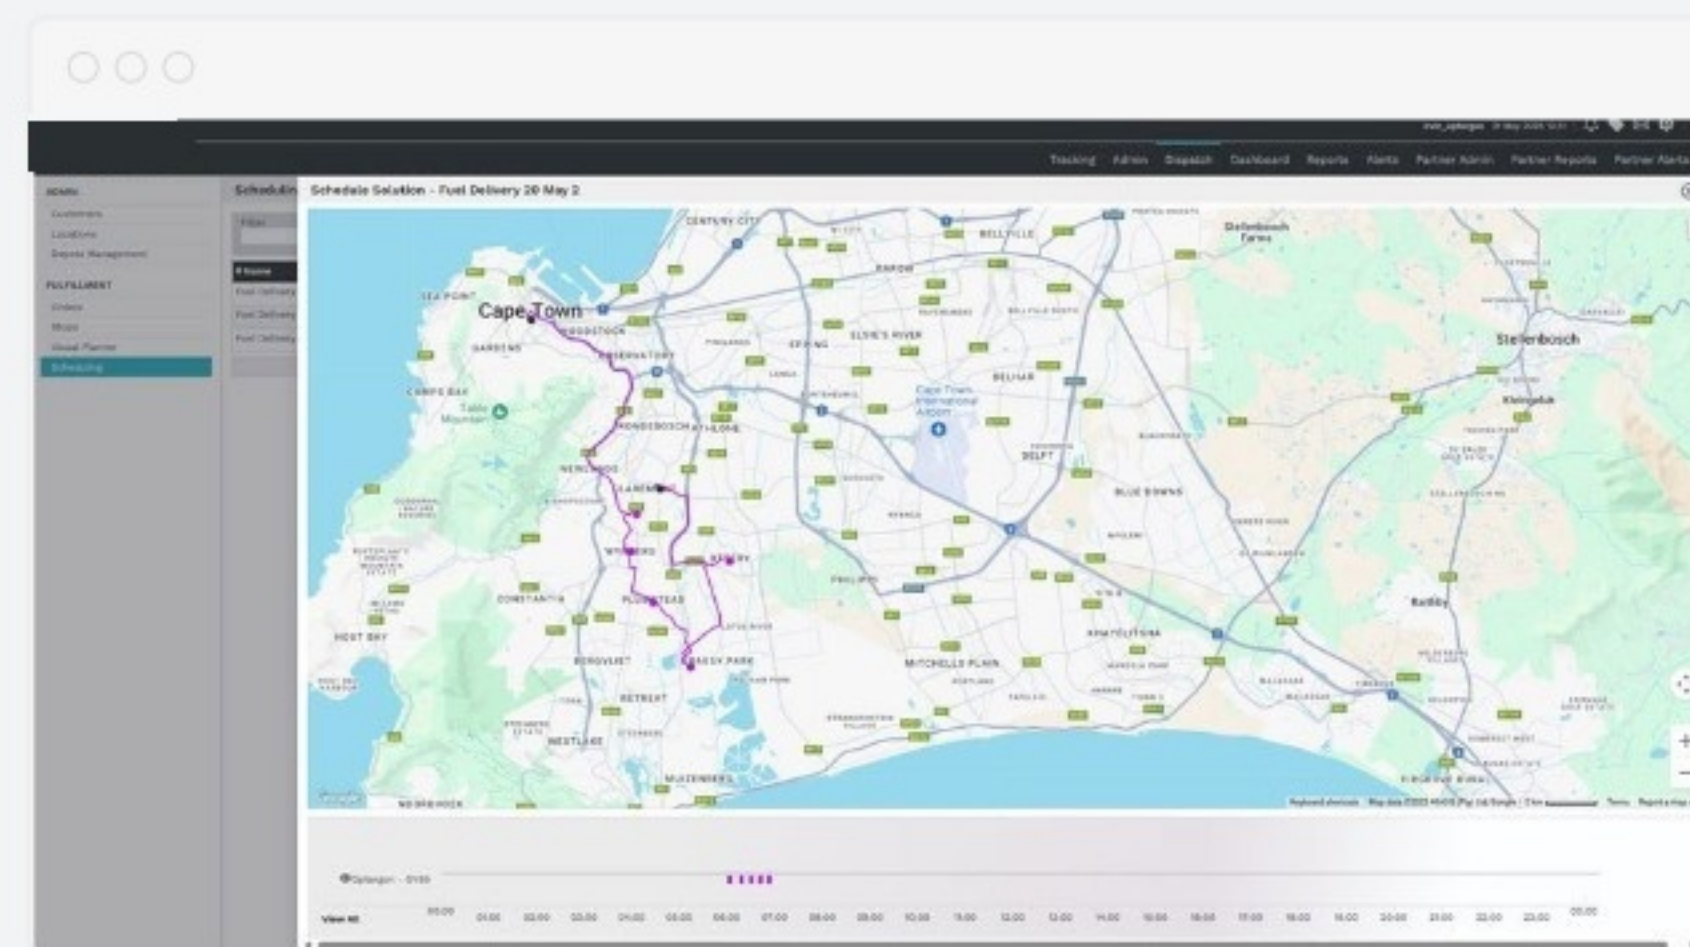

Use Case Scenario

Client: Fresh Food Delivery

Use Case: Daily grocery delivery across urban hubs

Solution

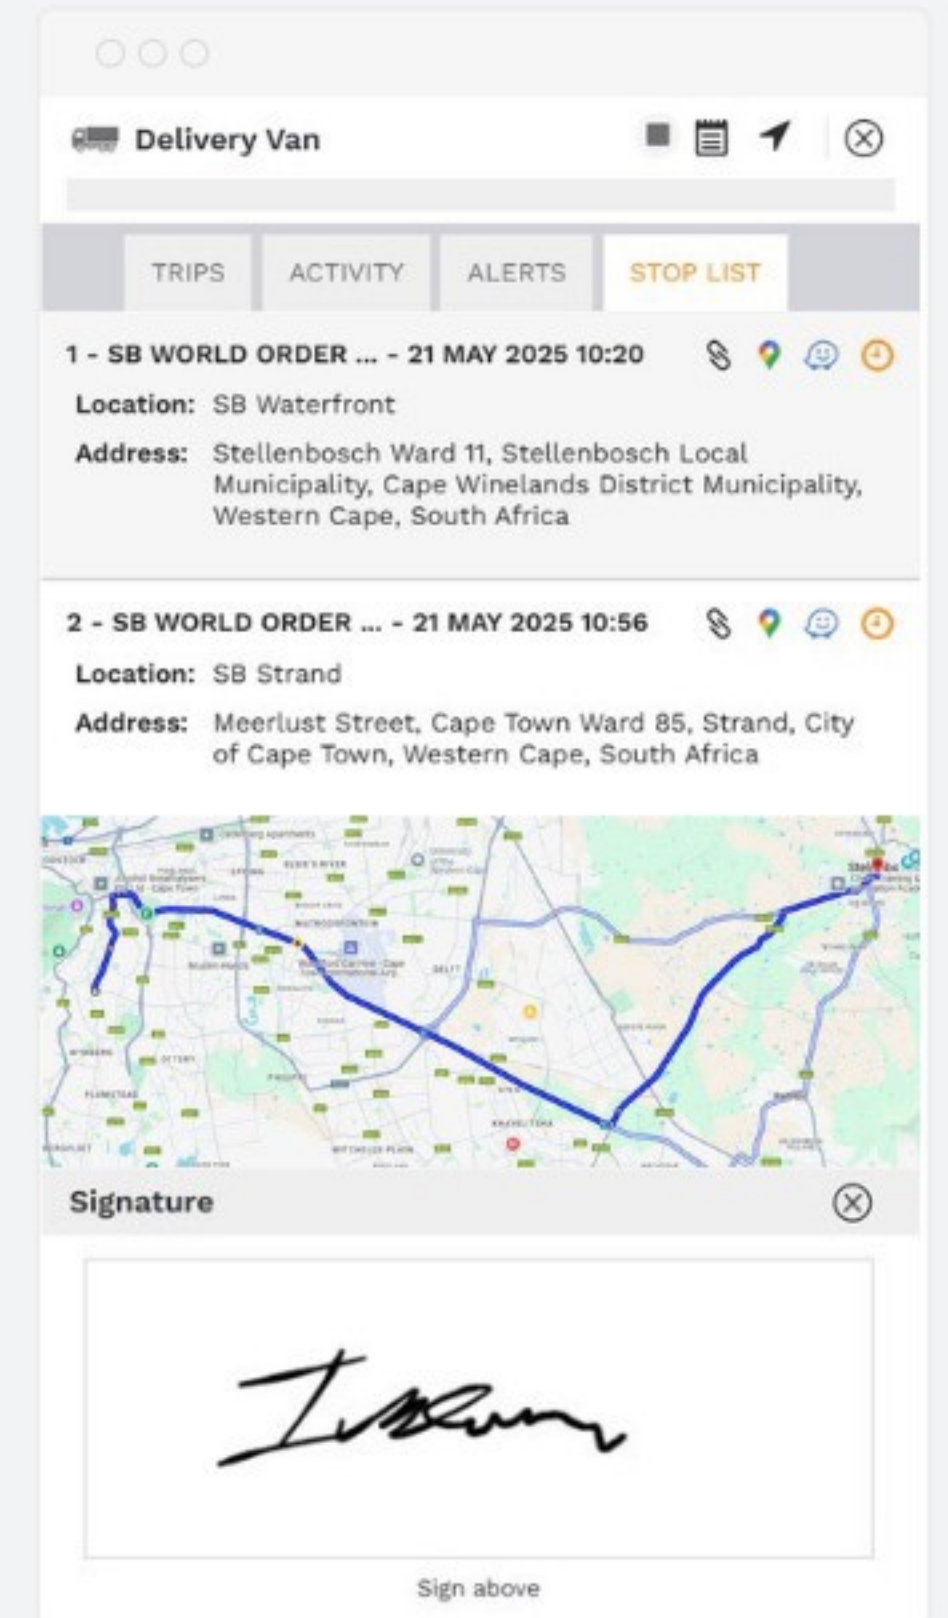

- ◆ **Automatic Scheduling** for 10 trucks
- ◆ **Stops grouped** and timed by route efficiency

Driver App Experience

- ◆ **View** only assigned stops
- ◆ **Use** Waze/Google Maps for navigation
- ◆ **Upload** delivery confirmations
- ◆ **Update** delivery status
- ◆ Eight-hour rolling stop visibility for **clarity**

Industries that use the feature
